YOU ARE CORDIALLY INVITED TO ATTEND

Join us for a lively discussion on how the issues are linked, what’s happening at local-global levels, and what we can do about it.

What: Presentation and audience discussion

When: Sunday, October 21st, 9:00am

Where: Unitarian Universalist Fellowship of Boca Raton, 2601 Saint Andrews Blvd, Boca Raton

The connections between reproductive health and development issues took center stage this summer, beginning at the UN "Rio +20" Sustainable Development Conference, and continuing to garner attention at the London Family Planning Summit and in a population series in the Los Angeles Times. Come hear leading experts on these intersecting issues discuss the linkages, provide updates on policy and advocacy, and share their views on how we can get involved, in addition to discussing the connection to the Unitarian Universalist Reproductive Justice Initiative. From the local community to the national and global levels, population growth, family planning and environmentally sustainable development are central to our lives. Many of these topics are at the core of the upcoming US Presidential election and Congressional legislative agenda. Come join us for a presentation and discussion to follow.

Special Guest Speakers:

- Kim Lovell, Program Director, Sierra Club Global Population & Environment Program
- Rebecca Wadler, Izaak Walton League of America, Conservation Education Associate
- Vicky Markham, Center for Environment and Population (CEP)
