“CEP Guide to Women and Sustainable Development Issues in US Colleges”

By Allison Schaefer, Brown University
CEP Fellow
About the Guide

The “CEP Guide to Women and Sustainable Development Issues in US Colleges” is a comprehensive review and database of programs, courses, and majors at different colleges and universities that specialize in women’s studies, environmental studies, international relations, and global health. This guide includes contact information of key faculty, professors, department heads, and directors at various well-known colleges across the country. The purpose of this guide is to provide the Center for Environment and Population (CEP) and their partner NGOs with contact information and data from these colleges. This provides a database of contacts if they need a faculty member, student leader, advocate, or activist to contribute to a panel, conference, or meeting. The guide will enable organizations to identify and reach out to faculty and student leaders who may share a similar passion for research, policy and advocacy on women’s health and environmental sustainability. It is divided into five US geographical regions from which select schools are discussed.

Table of Contents

Chapter 1- Northeast............ Page 3

Northeast

Ivy League:

Brown University:
- International Relations Program
  Mark Blyth
  401-863-1567
- Watson Institute for International studies
  401-863-2809
- International Health Institute
  401-863-1354
  Elizabeth Jackvony Elizabeth_Jackvony@Brown.edu 401-863-1499
- Gender and Sexuality Department
  Pembroke Center for Teaching and Research on Women
  401-863-2643
  Kay Warren 401-863-3466 Kay_Warren@Brown.edu

The International Relations program fosters analysis of global issues that span across many cultures. The International Health Institute researches international health in developing nations. The gender and sexuality department looks at how differences in society are produced by gender roles.

Columbia University:
- Mailman school of public health
  212-305-3927
  Heilbrunn Department of Population and Family Health
  Maria Cedeno and Thomas Glaser
- School of International and Public Affairs
  Energy and Environment Concentration
  SIPA Environmental Coalition (student group)
  Ellen Morris Director em2507@columbia.edu

  The Heilbrunn Department of population and family health focuses on reproductive health and health of families in developing nations and environments reacting to environmental problems. (international focus)* The SIPA energy and environment program focuses on sustainability and the future of the world’s environment.

Cornell University:
- Feminist, Gender and sexuality Program
  607-255-6480
  fgss@cornell.edu
- Center for International Studies
  Population and Development Program
Institute for African Development
Muna Ndulo CIAD@cornell.edu 607-255-6849
Global Health Program
Rebecca Stoltzfus jmm298@cornell.edu 607-254-6228
The FGSS focuses on women and activism and gender roles. PDP looks at population growth and issues in the global context. It specifically looks at population and development in rural environments. GHP looks at global problems, agriculture, forestry, diseases etc.

Dartmouth University:
- Women and Gender Studies
  603-646-2722
- Environmental studies
  603-646-2838
  Anne Kapuscinski Anne.Kapuscinksi@Darmouth.edu
  The Women and Gender studies department looks at gender in the social and cultural experiences of women. Environmental studies looks at interactions between people and the environment, assessing environmental problems.

Harvard University:
- Women Gender sexuality studies
  617-495-9199
  Afsaneh Najmabadi najmabad@fas.harvard.edu
- Global Health Institute
  Dr. Marcia Caldas De Castro
  UN Women Watch Sustainability
  WGS looks at gender's role in society and its relation with science. The Global health Institute addresses global health issues, seeking viable 21st century solutions. It focuses specifically on population displacement and its effect on health and pollution and health relationship. GHI has a specialized program in the environment and women.

Princeton University:
- Woodrow Wilson School of Public and International Affairs
  609-258-4818
- Gender and sexuality Studies
  609-258-5430
  Maria Papadakis mpapadak@princeton.edu
  WWS focuses on research in international affairs while stressing engagement in public service. GSS looks at femininity and gender roles within the family, society, and in the context of history.
University of Pennsylvania:
- Arts and Sciences International Relations Program
  215-898-0452
  Walter McDougall Director
- Women’s studies
  215-898-8740
  Dr. Christine Poggi Director 215-898-1527
IR Program looks at international relations, but also how private organizations and NGO's interact. Gender, Sexuality, and women studies looks at the role of gender in human affairs.

Yale University:
- Jackson Institute for Global Affairs
  Julia Adams (prof)
  jacksoninstitute@yale.edu
  203-432-6253
  Cristin Siebert Director of Student Affairs 203-432-5954
  James Levinsohn Director 203-432-6253
- MacMillan Center For International and Area Studies
  203-432-3410
  Ian Shapiro
- Women, Gender, and Sexuality Studies
  203-432-0845
  Inderpal Grewal inderpal.grewal@yale.edu 203-432-0848
The Jackson Institute for Global Affairs seeks to foster global engagement through numerous study abroad and international work placement programs. The MacMillan center researches international affairs and cultures, with majors focused in area studies. The Women, Gender, and sexuality studies examines gender and sexuality under a cultural and societal lens.

5 Colleges at Amherst:

Amherst College:
- Environmental Studies
  Karen Graves 413-542-2246 khgraves@amherst.edu
- Women’s and Gender Studies
  Margaret Hunt (Chair) mhrhunt@amherst.edu
  413-542-5781
  wags@amherst.edu
Environmental studies at Amherst looks at the relationship between human and nature. Women’s and Gender Studies explores the meaning of gender in society and the contributions women make to society.
Hampshire College:

- Environmental Studies and Sustainability
  Charlene D’Avanzo 413-559-5569 cdNS@hampshire.edu
- Globalization and Third World Studies
  Population and Development Program (PopDev)*****
  Betsy Hartmann (Director)
- Feminist Studies
  Five College Women’s Studies Research Center
  Karen Remmler (Director) 413-538-2986 kremmler@mtholyoke.edu

The environmental studies and sustainability major allows students to conduct research in forests and wetlands to learn more about environmental issues and sustainability. Globalization and third world studies focuses on the issues and struggles of developing nations and encourages students to learn about these nations by visiting such third world countries. The population and development program looks at the relationship between population growth and the environment, exploring issues of overpopulation, environmental degradation, and poverty. The program brings activists to speak on campus on issues of women’s health and reproductive rights.*** Feminist studies focuses on understanding feminist roles through a cultural lens.

Mt Holyoke College:

- Miller Worley Center for the Environment
  Tim Farnham 413-538-3091
- McCulloch Center for Global Initiatives
  413-538-2072
- Weissman Center for Leadership
  413-538-3071
- Gender Studies department
  413-538-2257

The Miller Center seeks to develop an understanding of the relationship between people and the environment and the cause of environmental issues. The McCulloch center has a wide range of international students but also promotes study abroad programs, international internships, and research abroad. The Weissman center for leadership promotes leaders who seek to be agents of change. The Gender studies department investigates oppression of women and social change.

Smith College:

- Environmental Science and policy
  L. David Smith (Director) 413-585-3828
  Center for Environment, Ecological Design, and Sustainability
- Study of Women and Gender
  Martha Ackelsberg (Chair)
Elisabeth Armstrong (study abroad) 413-585-3634

The environmental science and policy program at Smith addresses global environmental issues and produces leaders in the environmental fields. The Study of women and gender program looks at women, social inequality, and the actions of women in cultural contexts.

**UMass Amherst:**

- Environmental science
  Deborah Picking (Program manager) 413-545-5226
  Richard Yuretich and Anne Averill (Directors)
  Department of Environmental Conservation
  info@eco.umass.edu 413-545-2665 Curtice R. Griffin (Department Chair)
- Women Gender Sexuality Studies
  Laura Briggs (Professor and Chair) 413-545-1922
  The environmental science major has an interdisciplinary approach to finding a solution to environmental issues and creating a healthy environment. Students learn how limit pollution and its effects on the environment. WGSS analyzes the relationship between gender, race, sexuality and nationality.

**NESCAC:**

**Amherst College:** See above

**Bates College:**

- Environmental Studies
  207-786-8204
  jbelive2@bates.edu
  Holly Ewing (Department Chair)
  207-786-8315
  hewing@bates.edu
- Women and Gender Studies
  207-786-8296
  dbegin@bates.edu
  Environmental studies at Bates focuses on interactions between humans and the natural environment. Women and Gender studies works to recognize and understand gender relations in society, looking at women as “social agents.” The study also looks at how power is distributed across genders.

**Bowdoin College:**

- Environmental Studies
  Eileen Johnson (Program manager)
  ejohnson@bowdoin.edu
Environmental studies at Bowdoin enables students to recognize that we live in harmony with the environment and that man and nature are directly connected. The major is split into humanities, natural science, and social science. Gender and Women’s studies conducts research in the area of women and looks at the experiences of women within society.

Colby College:

- Environmental Studies Program
  Lia Morris (ES coordinator)
  207-859-5356
  escoordinator@colby.edu
  ES student advisory committee
- Global Studies program
  207-859-4000
  Jennifer Yoder (Director)
- Women, Gender, and sexuality studies
  Lisa Arellano (Director)
  207-859-4583
  larellan@colby.edu
  Affiliated groups: The Women’s Group
  The environmental studies program at Colby is one the best in the nation. It covers climate change, sustainability, and solutions to environmental challenges. The Global studies program focuses on international relations. Under this major, students must take a language and learn in the areas of economics, government, history, and anthropology. WGSS is a feminist major that looks at women in the context of gender, sexuality, race, and ethnicity.

Connecticut College:

- Environmental studies
  860-439-5021
  etsmi@conncoll.edu
  Liz Smith (Academic Dept. Assistant.)
  Goodwin-Niering Center for the Environment
  860-439-5417
  goodwin-nieringcenter@conncoll.edu
- Government and International Relations
Environmental studies at Conn college enables students to conserve the environment and create sustainability. Conn college’s IR program requires students to look at foreign policy, comparative politics and international politics. It also requires students to take a modern language. GWS uses research and studies to obtain justice in society for women and peace.

**Hamilton College:**
- Environmental Studies
  315-859-4367
  environmentalstudies@hamilton.edu
- Women’s Studies
  315-859-4282
  womensstudies@hamilton.edu

At Hamilton, students majoring in Environmental studies are challenged to understand the interactions between man and nature. They look at how man has shaped the environment in this era and the effects that has on our ecosystem. Students in the Women’s studies major seek to find the connection between gender and society, specifically gender and ability, race, sexuality and nationality.

**Middlebury College:**
- Environmental Studies
  John Isham (Director)
  802-443-3238
  jisham@middlebury.edu
  Renee Brown (Coordinator)
  802-443-5124
  rbrown@middlebury.edu
- Global Health Minor
  Robert Cluss (Professor)
- International and Global Studies
  Tamar Mayer (Director)
  802-443-5568
  mayer@middlebury.edu
  Martha Baldwin (Coordinator)
  802-443-5324
  baldwin@middlebury.edu
- Women and Gender Studies
  Sujata Moorti (Chair)
802-443-5674
smoorti@middlebury.edu
Karin Hanta (Director of Chellis House)
802-443-5937
khanta@middlebury.edu
Madeleine Winterfalcon (Program coordinator)
802-443-2007
mwinterf@middlebury.edu

The environmental studies major challenges students to understand the relationship/interactions between man and the environment. The global health minor at Middlebury focuses on the inequalities in access to health services around the world. Students minoring in global health demonstrate a desire to solve global health problems. Under international and global studies, students obtain an understanding of societies around the world, study abroad, and become proficient in a foreign modern language. WGS at Middlebury conducts research in the area of women’s studies and seeks to find an interdisciplinary understanding of women in society.

Trinity College:

- International studies
  Zayde Gordon Antrim (Director)
  860-297-2230
- Women, Gender, and Sexuality
  Robert J Corber (Director)
  860-297-5340

International studies majors at Trinity focus in three areas: gender, class, race, sustainable development, and comparative regions. WGS at Trinity looks at gender within the confines of society. The major enables students to look at gender in a historical context as well as a cultural context.

Tufts University:

- Environmental studies
  Ann Greaney-Williams (Program Coordinator)
  617-627-3353
  ann.greaney-williams@tufts.edu
  Colin Orians (Director)
  617-627-3543
  colin.orians@tufts.edu
- International Relations
  617-627-2776
  internationalrelations@tufts.edu
  Prof. Drusilla Brown (Director)
- Women’s Studies
  Sonia Hofkosh (Interim Director)
The environmental studies program at Tufts seeks to end the degradation of the environment, preserve the environment, and solve many climate change related problems. Tufts’ IR program uses international education to create responsible citizenship and focuses in the areas of economics, history, global health and many more. Tufts Women’s Studies looks at historical, political, cultural, and socioeconomic forces that shape the lives of women.

**Wesleyan University:**
- Environmental studies program
  Barry Chernoff (Director)
  860-685-2452
  bchernoff@wesleyan.edu
  Valerie Marinelli (Administrative Assistant)
  860-685-3733
  vmarinelli@wesleyan.edu
- Feminist, Gender, and Sexuality Studies
  Jen Enxuto (Administrative Assistant)
  860-685-3296
  Jennifer Tucker (Program Chair)
  860-685-5389
- International Relations
  Sarah Wiliarty (Director)
  swiliarty@wesleyan.edu
  Linda Cummings (Administrative Assistant)
  lcummings@wesleyan.edu

Wesleyan’s environmental studies program enables students to obtain an in-depth understanding of environmental problems. FGSS at Wesleyan focuses on research to understand women’s role in society. Students majoring in this topic area look at women in a historical context as well. IR at Wesleyan requires students to be proficient in a modern language. Students study international relations, history, and economics.

**Williams College:**
- Environmental studies
  Jennifer French (Program Chair)
  413-597-2541
  Jennifer.L.French@williams.edu
- International Studies
  Magnus Bernhardsson (Chair)
  413-597-2223
Williams’ Environmental studies program looks at the biological, physical, and social interactions between man and the environment. Students seek solutions to complex environmental issues. The international studies program at Williams enables students to increase their awareness of international issues relating to the environment, poverty, terrorism, and underdevelopment. These students strive to find solutions to these global problems. Williams’ WGSS program looks at how gender and sexuality roles operate within society.

Southeast

Virginia:

University of Virginia:
- Department of Environmental Sciences
  434-924-7761
- Department of Public Health Sciences
- Women Gender and Sexuality
  434-982-2961

The Department of Environmental Sciences conducts scientific research in environmental issues. The department of Public Health Sciences conducts research in epidemiology, science, and clinical health. The women, gender, and sexuality department analyzes how gender influences the surrounding world, and a woman’s position within society.

North Carolina:

Duke University:
- Trinity College of Arts and Sciences: International Comparative Studies
  Norman Keul (Dean for ICS) 919-684-2130 nkeul@duke.edu
  919-660-4351
- Women’s Studies
  919-684-5683
  Kimberley K Lamm (Assistant Prof and Director) 919-684-9661
  Ranjana Khanna (Program Director) 919-668-2548
  Duke Journal of Gender Law and Policy
- Sanford School of Public Policy
  919-613-7401
Center for Child and Family Policy  
Southern Africa Center for Leadership and Public Values  
*****Nicholas Institute for Environmental Policy Solutions  
- 919-613-8709  
- nicholasinstitute@duke.edu  
- Tim Profeta (Director) 919-613-8709

- Global Health Institute  
  919-681-7760  
  globalhealth@duke.edu
- Duke Population Research Institute  
  919-681-1972  
  contactdupri@duke.edu
- Hart Leadership Program  
  919-613-7350  
  Beth Osteen  
  Hart Fellows Program- Lauren Zalla 919-613-7406 lauren.zalla@duke.edu

ICS focuses on global and national studies by emphasizing study abroad programs and the development of fluency in foreign languages. The mission of ICS is to develop students who can work in an international environment to address complex and diverse issues and engage with others. Women’s Studies department explores gender identity, practices, and relations. The Sanford School of Public Policy has a center dedicated to familial policy as well as a joint program with the University of Cape Town to develop strong leaders. The Nicholas Institute for Environmental Policy Solutions conducts research in areas of climate change, pollution, and changing environment to find viable solutions to these problems. The Global Health Institute works to solve health problems both locally and internationally through research and education. The Population Research Institute conducts research in areas of demographics and population science. Hart promotes student leaders and involvement in the community. Under the Hart fellows program, students can work in organizations in developing countries.

University of North Carolina Chapel Hill:
- Gillings School of Global Public Health  
  919-966-3761  
  Office of Student Affairs 919-966-2499  
  Maternal and Child Health Department 919-966-2017
- Department of Women and Gender Studies  
  919-962-3908  
  kthomps1@email.unc.edu  
  Joanne Hershfield (Department Chair) 919-962-3908  
  The Gillings school of Global Public Health stresses disease prevention, international health, medicine sociology through research. Women and Gender studies has specific areas of interest including the relationship between women and global studies, public health, and political science.
**South Carolina:**

**Claflin University:**
- School of Natural Sciences and Mathematics
  - Natural Sciences
    - Dr. Verlie Tisdale (Dean)
    - 803-535-5433
    - vtisdale@claflin.edu
  - Department of Biology (Bachelor of Science in Environmental Science)
- Major in environmental sciences
- Minor in gender studies

  The Natural Sciences department at the School of Natural sciences and Mathematics at Claflin enables students to study biology and other important sciences through laboratory work and research. Additionally, Claflin offers a major in Environmental Science as well as a minor in Gender Studies. (No further contact info available)

**Clemson University:**
- Environmental and Natural Resources
  - Katie Black (Student Recruitment Coordinator)
    - 888-472-5433
    - hulse@clemson.edu
  - Students for Environmental Action Club: 864-354-5307
- Soil and Sustainable Crop Systems
  - Dr. Pat Zungoli
    - pzngl@clemson.edu
    - 864-656-3137
  - Dr. Paula Agudelo
    - pagudel@clemson.edu

  Environmental and Natural Resources at Clemson focuses on conservation of the environment, preservation of species, and reacting to industrialization. Students at Clemson under this major work towards creating sustainability. Soil and Sustainable crop Systems at Clemson specializes in the topic areas of biology and biotechnology in order to find sustainable solutions to environment problems and to increase crop productivity.

**College of Charleston:**
- International Studies
  - Douglas Friedman (Department Chair)
    - 843-953-4884
- Women’s and Gender Studies Program
  - Alison Piepmeier (Program Director)
    - 843-953-2280
- Minor in Environmental Studies
  - Seth Pritchard (Program Director)
College of Charleston has a program in international studies which pushes students to consider global events under a historical and cultural lens. Many students majoring in international studies study abroad while at CofC. The WGS program fosters student involvement in public affairs and direct work with their communities. Students at CofC can also obtain a minor in environmental studies, in which students can confront environmental issues through extensive research.

Columbia College:
- Gender and Women’s Studies
  Dr. Heather Hahn
  803-786-3489
  hhan@columbiasc.edu
  Dr. Corinne Mann
  803-786-3808
  cdmann@columbiasc.edu
- Health and Wellness
  Major in Public Health and Delivery
  Dr. Richard Krejci (Program Coordinator)
  Dr. Kirt Moody (Division Head and Program Coordinator)
  GWS at Columbia College addresses how gender and women have transformed the global society. At Columbia College students can also major in public health and delivery, in which they study health behavior, the relationship between human rights and health, and public health on a global scale.

Converse College:
- History and Politics (for international relations)
  Joe P. Dunn (Chair)
  864-596-9101
  joe.dunn@converse.edu
  Converse College’s department of History and Politics allows students to study international relations, as well as course work in politics. Converse College also offers these students various opportunities for internships and study abroad programs.

South Carolina State University:
- Environmental Monitoring and Restoration Curriculum
  803-536-7064
  graduateschool@scsu.edu
- Individual and Family Development
  South Carolina State University has a graduate program in Environmental Monitoring and Restoration Curriculum, which enables students to learn about environmental pollution, environmental restoration, and even law pertaining to the environment. SCSU also has a graduate program which allows students to learn
about the family in the context of culture, as well as different stages of childhood and adulthood.

**University of South Carolina:**
- Environment and Sustainability Program  
  Dr. Gwendelyn Geidel (Director)  
  803-777-3921  
  geidel@environ.sc.edu  
  Shelley Schlenk (Undergraduate Student Coordinator)  
  803-777-6163  
  schlenk@malibox.sc.edu  
  Students Advocating a Greener Environment (SAGE)

The University of South Carolina’s Environment and Sustainability Program engages students in innovative research on issues such as climate change, pollution, and human development. Students strive to reduce environmental hazards and create sustainability. SAGE is a related organization at University of South Carolina for students with an interest in the preservation of the environment.

**Georgia:**

**Clark Atlanta University:**
- School of Arts and Sciences  
  Department of Biological Sciences  
  404-880-6790  
  Department of Political Science  
  404-880-8718  
  polisci@cau.edu

The School of Arts and Sciences has a department of biological sciences, which provides students with opportunities for research. Additionally, the Department of Political Science looks at the connection between politics, the economy, and human development. Students study communities ranging from large to small around the world.

**Emory University:**
- College of Arts and Sciences: Political Science Department  
  International Studies  
  404-727-6572  
  polisci@emory.edu

- Department of Women’s, Gender, Sexuality Studies  
  404-727-0096

- Department of Environmental Studies  
  404-727-4216

- Center for Study of Human Health  
  404-712-6891
Global Health Culture and Society Minor
Sustainability Minor
• Rollins School of Public Health
  404-727-6123
  Environmental Health Sciences PhD
  The International studies focus in the department of political science is for students interested in comparative politics and international relations with a foreign language emphasis. WGSS looks at gender in terms of race, ethnicity, and nationality. The department of environmental studies looks at climate change, depletion of resources, and pollution in an effort to find sustainable solutions to environmental problems. It also looks at the social ramifications of environmental issues. The center for Human Health specializes in human health, global health, and nutrition.

Georgia State University:
• Andrew Young School of Policy Studies
  Greg Lewis (Director and Professor)
  404-413-0114
glewis@gsu.edu
• College of Arts and Science
  Majors in Environmental Studies and International Relations
• Women’s, Gender, and Sexuality Studies
  Amira Jarmakani (Director and Associate Professor)
amira@gsu.edu
  404-413-6587
wsi@gsu.edu
  At the Andrew Young School of Policy Studies, students can obtain a bachelor degree in public policy. In the College of Arts and Science students can major in environmental studies or international relations. Additionally, the Women’s, Gender, and Sexuality Studies program teaches students in the areas of “social change, globalization, and sexuality.” Students in the WGSS program often study women in the context of culture and the global community.

Morehouse School of Medicine
• Master of Public Health Program
  mphprogram@msm.edu
  Dr. Stephanie Miles Richardson (Associate Professor and Interim Director)
  404-752-1946
  smiles-richardson@msm.edu
  Elaine Archie-Booker (Student mentor)
  404-752-1880
  eabooker@msm.edu
  The Master of Public Health Program at Morehouse School of Medicine seeks to improve the wellbeing and health in various communities around the world.
Students achieve this goal by conducting research in areas of health and medicine. The Program also places an emphasis on public health. (*Related to CEP)

**University of Georgia:**

- College of Agriculture and Environmental Studies  
  AG Leadership, Communication and Education  
  Dennis Duncan (Department Head)  
  706-542-3898  
  dwd@uga.edu

- Center for Global Health  
  706-542-3528  
  Richard J Schuster (Director)  
  706-542-5742  
  rschuste@uga.edu

- Department of International Affairs  
  706-542-6705  
  Dr. Jeff Berejikian (Undergraduate Coordinator)  
  University of Georgia’s College of Agriculture and Environmental Studies conducts research in the field of agricultural practices and environmental impacts. The program seeks to create an environment that produces healthy crops while protecting ecosystems. The Center for Global Health allows students to study healthcare programs across the globe and how they are implemented, in an effort to promote health care for all global citizens. The Department of International Affairs has areas of study that include global studies and policy.

**Florida:**

**Florida Atlantic University:**

- Women Studies  
  561-297-3865  
  Josephine Beoku-Betts wsc@fau.edu

- Graduate Certificate in Environmental Studies  
  Sandra L. Norman  
  561-297-2621  
  The Center for Women and Gender Studies that seeks to understand women’s experiences as they interact with society, ethnicity, age, etc, stresses activism and advocacy. The certificate in environmental studies enables students to understand environmental issues from a historical, social and political perspective.

**Lynn University:**

- BS Environmental studies  
  561-237-7000  
  Environmental studies program looks at environmental protection, human interaction with the environment, and environmental law.
University of Miami:

- Institute for Women’s Health
  Thomas M. Hooton
  Erin N. Marcus
- International Studies Department
  305-284-4303
  Bruce Bagley bagley@miami.edu 305-284-6867
- Women and Gender Studies Program
  Dr. Steven Butterman 305-284-7221 butterman@miami.edu
  305-284-2017

  The Institute for Women’s Health seeks to research women’s health issues, improve women’s health through community partnerships and research, and hold conferences discussing women’s health. The International Studies Department facilitates research and study abroad on international issues. The Women and Gender studies program examines gender issues within society and how gender identifies social roles.

Southwest

Texas:

Southern Methodist University:

- International and Area Studies (Dedman College of Humanities and Science)
  214-768-2523
  Stephen Wegren
- Women and Gender Studies Program
  The International and Area Studies focuses on looking at a global perspective of the human experience, with study abroad opportunities. The Women and Gender Studies Program focuses on social effects of gender differences and the contributions of women to society.

Texas Christian University:

- Addran College of Liberal Arts: Department of Political Science: International Relations
  817-257-7395
  TCU has a international relations focused major in its department of political science that covers issues related to the CEP’s work in developing nations.

University of North Texas:

- International Studies Major
  940-565-2323
  International studies major focuses on global environment, population changes, and work with non-profit organizations, like the CEP.
University of Texas at Austin:

- Center for Women and Gender Studies:
  512-471-5765
  Susan Sage Heinzelman (Director)
  Gender and Health Research Cluster (Lynn Rew)
  Professors:
  Jessica Cance (specializes in global public health) jdcance@austin.utexas.edu
  Internships: students find their own internships

- Department of Geography and the Environment
  512-471-5116
  Sustainability Study Track: Brian Roberts

- Population Research Center
  512-471-5514
  Mark D. Hayward

- International Relations and Global Studies
  512-232-6344
  Michael D. Anderson 512-232-7266
  Stephanie Holmsten 512-232-7215
  Michael W Mosser 512-232-7280

  The Center for Women and Gender Studies covers advocacy and teaching in ending gender discrimination and has programs for young women leaders. The Department of Geography and the Environment has a program on sustainability and how societies adjust with the environment. The Department focuses on the relationship between people and the environment (much like CEP does). The Population Research Center looks at population trends. The International Relations and Global studies track looks at climate change and its effect on society.

Michigan:

University of Michigan:

- School of Natural Resources and the Environment
  734-764-6453
- School of Public Health
  734-764-5425
  Environmental Health Sciences
  Andrew D. Maynard (Interim chair) 734-764-3188 maynarda@umich.edu

  The School of natural resources and the environment aims to protect the environment and achieve sustainability. The school of public health seeks to prevent diseases and promote public health worldwide.
**West**

**Colorado:**

**University of Colorado Boulder:**
- Environmental Studies Program  
  Sharon Collinge (Director) 303-735-3242
- International Affairs Program  
  303-492-7295  
  iafs@colorado.edu
- Women and Gender Studies  
  303-492-8923 WGST@Colorado.edu

The environmental studies program helps students develop problem solving techniques to environmental problems both in the U.S. and the global community. The IA Program requires students to focus their studies on one specific region outside the U.S. The IA program offers many internships to students. WGS specializes in studying women and gender in terms of race, sexuality, and global studies.

**Montana:**

**Montana State University Bozeman:**
- Environmental Science degree  
  Department of Land Resources and Environmental Sciences: 406-994-7060  
  Academic Programs: 406-994-3090 lresinfo@montana.edu  
  Dr. Tracy M. Sterling (Department Head)
- Sustainable food and bioenergy systems  
  406-994-5640  
  dean.williamson@montana.edu  
  Dean Williamson (Program Coordinator)
- Women’s studies (specialized area of study, not a major)
- Health and Human Performance Degree  
  Health and Human Development: 406-994-3242  
  Undergraduate Advising Office: 406-994-4001 hhd@montana.edu

The environmental science degree at MSU teaches students on how to manage land and water resources in the environment through lab research. MSU has some great environment/agriculture degree programs, such as the sustainable food and bioenergy systems which explores sustainable production and distribution of food. MSU also has a specialized area of study in women's studies. HHD at MSU prepares students for work in health and wellness programs.
California:

Stanford University:

- Environmental Earth System Science
  Scott Fendorf (Department Chair) fendorf@stanford.edu 650-723-5238
  Newsha Firoozye Davis (Student services) newshaf@stanford.edu
  650-721-5723
- Health Research and Policy
  650-723-5082
  Kevin Horner kahorner@stanford.edu
- Emmett Interdisciplinary Program in Environment and Resources
  Nicole Ardoin (Assistant Professor) 650-721-2231 nmardoin@stanford.edu
- International Relations
  Michael Tomz (Director) tomz@stanford.edu
  Sara Bascetta-Bohn (Student services) intirelations@stanford.edu
  650-725-0715
- Feminist Studies
  Feminist-staff@stanford.edu
  650-723-3413
  650-725-1477

The EESS department at Stanford investigates the causes and responses to environmental change on the global scale. Stanford’s Health Research and Policy department does research in health and specializes in population sciences. The Emmett program helps students develop and understanding of significant environmental challenges and the road to sustainability. IR at Stanford focuses on political, economic, and cultural relations in the global community. Feminist studies at Stanford looks at how societies organize gender roles and how these roles interact with other roles.
